Approved, March 16, 1906.

RULINGS OF THE TREASURY DEPARTMENT AS TO THE CONSTRUCTION OF THE ACT OF CON- GRESS OF MARCH 2, 1887, ESTABLISHING AGRI- CULTURAL EXPERIMENT STATIONS.

From copies of letters addressed to the Secretary of the Treasury, and others, by the First Comptroller of the Treasury, relating to the construction of the act of Congress of March 2, 1887, and acts supplementary thereto, the following digest has been prepared for the use of the stations. The sections are those of the act, the dates, those of the decisions by the Comptroller:

(Section 3. January 30, 1888.)

That the annual financial statement of the stations, with vouchers, should not be sent to the Treasury Department, but that a copy simply of the report that is made to the governor is to be sent to the Secretary of the Treasury.

(Section 3. January 31, 1888.)

First. That the Treasury Department will not require officers of experiment stations to do or perform anything not specifically required by said bill.

Second. That the Secretary of the Treasury is not required to take a bond of the officers of said stations for the money paid over under the provisions of said act.

Third. That no reports will be required from the stations directly to the Secretary of the Treasury; but the governor of the state must send to the Secretary of the Treasury a copy of the report made to him by the colleges or stations.

(Section 5. March 4, 1887.)

“Congress only intended by the expression ‘the sum of fifteen thousand dollars is hereby appropriated to each state,’ to fix the amount that could be specially provided for by Congress in appropriations from year to year. Hence I conclude that section five does not make an appropriation; but that the same must be specially provided for by Congress.”

(Sections 5 and 6. March 10, 1888.)

(1) The appropriations are intended for the fiscal year and not the calendar year.

(2) The first annual report should be made on or before the 1st day of February, 1889, and said report should include simply the operations of the preceding fiscal year, not down to and including December 31, but up to and including June 30, 1888.

(3) The balance unexpended at the end of the fiscal year, the 30th of June preceding the report, must be accounted for in the report.

(4) The one-fifth proviso for building in section five can be made out of the first annual appropriation, to-wit, that which commences on the 1st day of July, 1887, and terminates on the 30th of June, 1888.

(5) The intention of Congress was to make quarterly payments, not in advance, but at the end of each quarter.

(Section 5, proviso. March 22, 1888.)

“I have been informed that there is no farm connected with the agricultural college in Delaware. The act provides that one-fifth of the amount appropriated can be

expended in the creation, enlargement, or repair of a building or buildings for carrying on the work of the station receiving the appropriation. I am in doubt whether, with this qualification, out of the balance of the appropriation a farm could either be purchased or rented. Another question in my mind is as to the competency of the legislature which was in session at the date of the passage of the act to accept, as it assumed to do, of the provisions of the act, the ninth section of which provides that 'Payment of such installments of the appropriation herein made as shall become due to any state before the adjournment of the regular session of its legislature meeting next after the passage of this act shall be made upon the assent of the governor thereof duly certified to the Secretary of the Treasury.' "

(Section 6. April 24, 1888.)

At the end of the present fiscal year, to-wit, June 30, any portion of the \$15,000 which shall have been received, up to and including the payment made on the first day of July, which is unexpended, or which may not be necessary to pay claims under contracts made for the benefit of said agricultural station, must be deducted from the next annual appropriation, as specified in said sixth section.

(Section 6. August 2, 1888.)

The fiscal year commences on the 1st day of July, corresponding with the fiscal year of the government.

An agricultural station entitled to the benefits of said appropriations made by Congress can anticipate the payment to be made July 1, and make contracts of purchases prior to that time, if it shall be necessary to carry on the work of the station. Of course no portion of said appropriations paid in quarterly installments can be drawn from the Treasury unless needed for the purposes indicated in the act; and so much of what is so drawn as may not have been expended within the year must be accounted for as part of the appropriation for the following year.

(Section 8. January 30, 1888.)

The state of New York ought to designate whether to the college or to the station, or to both, it desires the appropriation to be applied. The eighth section of the act seems to authorize the state to apply such benefits to

experimental stations it may have established as it desires.

Where there are no experimental stations connected with the colleges, the legislatures of such states must connect the agricultural experiment stations with the colleges already established under the act of July 2, 1862; there is no authority in the act authorizing the establishment of agricultural experiment stations independent of said colleges.

The act contemplates that where stations have already been established disconnected from the colleges, the legislatures of such states may take such provisions in regard thereto as they may deem proper; but it does not authorize the establishment of stations except in connection with the colleges that were at that time or might thereafter be established under the act of July 2, 1862.

(Section 8. February 14, 1888.)

Where there is an agricultural college or station which may have been established by state authority, and is maintained by the state, the eighth section of the above act would authorize the state to designate the station to which it desired the appropriation to be applied, whether to one or more, or all, and the Secretary of the Treasury should make the payment under the appropriation to whichever one the state might designate.

(Sections 1 and 8. February 15, 1888.)

(1) When an agricultural college or station has been established under the act of July 2, 1862, each college is entitled to the benefits of the provisions of said act (*i. e.*, of March 2, 1887.)

(2) In a state where an agricultural college has been established under the act of July 2, 1862, and agricultural stations have also been established, either under the act of July 2, 1862, or by state authority, before March 2, 1887, the legislature of such state may determine which one of said institutions, or how many of them, shall receive the benefits of the act of March 2, 1887.

(3) If the legislature of any state in which an agricultural college has been established under the act of July 2, 1862, desires to establish an agricultural station which shall be entitled to the benefits of said act it must establish such station in connection with said college.

(Proviso to Section 1 and Section 8. December 7, 1888.)

It is within the power of the legislature of any state that has accepted the provisions of said act of March 2, 1887, to dispose of the amount appropriated by Congress for said station to either one or all of the agricultural colleges or stations which may have been established in said state by virtue of either the provisions of the act of July 2, 1862, or the provisions of said eighth section of the act of March 2, 1887.

The whole responsibility rests upon the state legislature as to how the fund appropriated by Congress shall be distributed among these various institutions of the state, provided there is one or more agricultural colleges with which an agricultural station is connected, or one or more agricultural stations.

(Section 8. January 28, 1889.)

The act of the state of Georgia in authorizing the governor to receive the fund to which the state may be entitled under the act of March 2, 1887, is not in conflict with any of the provisions of said act. If a state has established an agricultural college or station under the act of July 2, 1862, or if it has established an agricultural station in connection with said college, as provided in the eighth section of March 2, 1887, the legislature can authorize some person or persons to receive the money donated by the government and direct its application in such a way and manner as it seems best to carry out the objects and purposes of said acts of Congress to either the colleges or the station, or to both.

(Section 9. February 4, 1888.)

It appears by the statement of Representative Blount that there was a session of the legislature of the state of Georgia after the passage of the act, and before the first payment became due, October 1, 1887, and which did not adjourn until after that time. That being the case, under the proviso of the section, the governor of the state can not assent to that payment which was to be made October 1, 1887. The legislature having adjourned before the second payment became due, without accepting the provisions of the bill, no further payment can be made to said state until the legislature thereof shall have accepted the provisions of the bill. You will observe the language

of the proviso, "that payments of the installments of the appropriation herein made as shall become due to any state before the adjournment of the regular session of its legislature" applies, certainly, only to such installments as become due before the final adjournment. The idea seems to be to give the legislature the full time before it adjourns to accept the provisions of the bill or not; but it is plain to my mind, that only such payments as become due before the adjournment of the legislature can be accepted by the governor of the state.

REGULATIONS OF THE POSTOFFICE DEPARTMENT FOR THE FREE TRANSMISSION IN THE MAILS OF THE BULLETINS AND REPORTS.

(As amended January 27, 1888.)

(1) Any claimant of the privilege must apply for authority to exercise it to the Postmaster-General, stating the date of the establishment of such station, its proper name or designation, its official organization and the names of its officers, the name of the university, college, school, or institution to which it is attached, if any, the legislation of the state or territory providing for its establishment, and any other granting it the benefits of the provision made by Congress as aforesaid (accompanied by a copy of the act or acts), and whether any other such station in the same state or territory is considered, or claims to be, also entitled to the privilege; and also the place of its location and the name of the postoffice where the bulletins and reports will be mailed. The application must be signed by the officer in charge of the station.

(2) If such application be allowed after examination by the department, the postmaster of the proper office will be instructed to admit such bulletins and reports to the mails in compliance with these regulations, and the officer in charge of the station will be notified thereof.

(3) Only such bulletins and reports as shall have been issued after the station became entitled to the benefits of the act can be so transmitted free; and they must be

enclosed in unsealed envelopes, or so wrapped as to admit of easy and thorough examination. On the exterior of the envelope or wrapper must be written or printed the name of the station, and the place of its location, the designation of the enclosed bulletin or report, and the word "free" over the signature of the officer in charge of the station, to be written by himself or by some one duly deputed by him for that purpose. If any other matter, printed or written, be added, the whole will be unmailable free.

(4) The bulletins may be mailed to the stations, newspapers, or persons to whom they are by the foregoing act authorized to be sent, and the annual reports to any address within the United States.

PUBLICATIONS ADMISSIBLE TO SECOND CLASS OF MAIL MATTER WITHOUT SUBSCRIBERS.

SEC. 429.—PUBLICATIONS OF FRATERNAL SOCIETIES, EDUCATIONAL INSTITUTIONS, ETC.—All periodical publications issued from a known place of publication at stated intervals and as frequently as four times a year by or under the auspices of a benevolent or fraternal society or order organized under the lodge system and having a bona fide membership of not less than one thousand persons, or by a regularly incorporated institution of learning, or by or under the auspices of a trades union, and all publications of strictly professional, literary, historical, or scientific societies, including the bulletins issued by state boards of health, shall be admitted to the mails as second-class matter and the postage thereon shall be the same as on other second-class matter and no more: *provided, further*, That such matter shall be originated and published to further the objects and purposes of such society, order, trades union, or institution of learning, and shall be formed of printed paper sheets without board, cloth, leather, or other substantial binding, such as distinguish printed books for preservation from periodical publications. (Act of July 16, 1894.)

NOTE.—Extracts from opinions of Assistant Attorney General, Post Office Department, bearing upon this Act.

(a) *Relative to incorporated institutions of learning.*—“In my judgment, the aim of the act of July 16, 1894, is to promote the interests of institutions of learning, organized for the benefit of the public, and not for any company or person maintaining and conducting a school, college, or place of instruction for the personal benefit of the owner or stockholders.” (Extract, opinion of April 4, 1900.)

(b) *Relative to advertisements foreign to objects and purposes of publisher.*—“Under this law, to entitle a paper to be sent through the mails at second-class rates, among other things, the matter contained therein ‘shall be originated and published to further the objects and purposes of *such* society, order, trades union, or institution of learning.’ In reply, therefore, to your inquiry designated ‘first,’ I have to state that in my opinion a paper containing advertisements in the interest of other persons or concerns than the society, order, trades union, or institution of learning which such paper represents, is not entitled to the privileges of the law quoted.” (Extract, opinion of January 24, 1901.)

SEC. 430. PUBLICATIONS ISSUED BY STATE DEPARTMENTS OF AGRICULTURE.— * * * That all periodical publications issued from a known place of publication at stated intervals as frequently as four times a year by State Departments of Agriculture shall be admitted to the mails as second-class mail matter: *provided*, That such matter shall be published only for the purpose of furthering the objects of such departments: *and provided, further*, That such publications shall not contain any advertising matter of any kind. (Act of June 6, 1900.)

NOTE.—The foregoing acts are amendatory to the act of March 3, 1879, and publications specified in said acts must conform to the technical requirements of paragraphs 1, 2, and 3 of section 14 of the latter act. (Pars. 1, 2, and 3, sec. 428, P. L. and R., edition of 1902.)

The board shall also report to the governor as often as may seem desirable the important results of investigations conducted by the director of the Washburn observatory and by other investigators connected with the university, and also the results of such experiments therein relating to agriculture or the mechanic arts as said board may deem to be of special value to the agricultural and mechanical interests of the state. With the approval of the governor such number of copies as he shall direct, and of the Washburn observatory re-

ports not more than seven hundred copies, may be printed by the state printer in separate form on good paper and with such appropriate quality of binding as the commissioners of public printing shall order. The immediate government of the several colleges shall be intrusted to their respective faculties; but the regents shall have the power to regulate the courses of instruction and prescribe the books or works to be used in the several courses, and also to confer such degrees and grant such diplomas as are usual in universities or as they shall deem appropriate, and to confer upon the faculty by by-laws the power to suspend or expel students for misconduct or other cause prescribed in such by-laws.

OBJECT AND DEPARTMENTS. SECTION 385. The object of the university of Wisconsin shall be to provide the means of acquiring a thorough knowledge of the various branches of learning connected with literary, scientific, industrial, and professional pursuits, and to this end it shall consist of the following colleges or departments, to-wit:

1. The college of letters and science.
2. The college of mechanics and engineering.

3. The college of agriculture.

The State Treasurer shall likewise at the same time make a separate account showing the balance on hand at the beginning of the fiscal year in the account of "The University Trust Funds," the amount received during the year to the credit of such account and the amount debited thereto, with the particulars in either case of dates, amounts and the respective sources from which receipts were derived or the purposes for which disbursements were made; and shall also furnish at the same time a list of the securities and investments in his hands with the balance of the principal thereof remaining.

SECTION 2. The Secretary of the Board shall keep an account entitled "The State Treasurer's University Trust Funds," and an account entitled "The State Treasurer's University Trust Funds Income," both of which shall be cash accounts showing the true state of the moneys remaining in the hands of the Treasurer on account of the Trust Funds and all the moneys received as income therefrom; and shall be entirely separate and apart from the general account of the State Treasurer with the University for receipts and disbursements on account of the University's general income. The Secretary of the Board shall also keep an account designated as "The Trust Funds Investments," to which shall be charged the principal sums invested on account of the loan of the trust funds or other investments thereof for income and be credited the payments received on account of the principal thereof from time to time. Whenever any sums which have been invested shall be repaid on account of principal, the amount thereof will be debited to the State Treasurer's "University Trust Funds" and credited to the account of "Trust Funds Investments," so specifying particulars as that the latter account shall always show the several investments and the respective amounts of each thereof. Whenever receipts are made on account of the principal of any of the trust funds therein by realization of assets not previously entered in money account or by further donations, the amount thereof shall be charged to "The State Treasurer's University Trust Funds" and credited to the proper trust fund account. Any disbursements, or loss, on account of the principal of any of said trust funds shall be credited to the State Treasurer's account and debited to the proper trust fund.

If such loss shall consist in the failure to collect any investment, the amount thereof shall be apportioned to and debited to the several trust funds in accordance with the relation of the principal of each to the aggregate of the whole, as hereinafter provided for apportionment of income, except in such cases as the same shall be taken from the income and charged to "The University Trust Funds Income" by order of the Board.

Upon the receipt of the State Treasurer's statement made at the close of the 30th day of June, of each year, the Secretary shall charge to "The State Treasurer's University Trust Funds Income," the net amount of annual income derived from all the investments of the trust funds and shall at the same time apportion and credit to the several income accounts of the several trust funds such share of the total net income as the amount of principal of each of said trust funds as shown by the balance thereof on the first of the fiscal year then closed shall bear to the aggregate of the principal of all the trust funds on that date, due computation being entered on the journal. Payments made out of the income of the several funds shall then be debited to such respective fund income and credited, upon warrant drawn, to the "State Treasurer's University Trust Funds Income;" so that the balance standing to the debit of the latter account will always be equal to the aggregate of the balances standing to the credit of the several trust funds income accounts; and the balance standing to the debit of "The State Treasurer's University Trust Funds" and to the debit of "The State Treasurer's University Trust Funds Income" will always show the balance of moneys in his hands belonging to the University's Trust Funds and the produce thereof and thus be kept distinct and separate from the general accounts of the University.

SECTION 3. Payments from the income of each of the several trust funds mentioned in Section 1, except the Adams Fellowship Fund, shall be made annually in accordance with the law governing the respective fund as hereinafter provided; but no payment shall be made until the income shall have been realized and, upon the statement of the State Treasurer, credited to the proper income account. Such part of the income derived on account of the Charles K. and Mary M. Adams Fellowship Fund, as required by the Wills by which said

fund was bequeathed, shall be immediately transferred to the capital of said fund, and for that purpose immediately upon the receipt thereof the proper amount shall be certified to the Secretary of State who shall draw his warrant for the transfer thereof from "The University Trust Funds Income Account" to "The University Trust Funds" and proper entries shall be made by the Secretary upon the accounts aforesaid on the books of the University to show the same by crediting the proportionate share of income accruing to that fund to the capital of said fund and by debiting the "State Treasurer's University Trust Funds" with the amount thereof.

SECTION 4. All loans and investments of moneys belonging to the trust funds shall be made by the Committee on Trust Funds and Donations, from time to time as moneys may be in the hands of the State Treasurer therefor, and the same shall be certified to the Secretary of State in the manner required for the certification of accounts so that the proper warrant may be drawn therefor upon the Treasurer. For this purpose, the Committee on Trust Funds and Donations may make such certification at any convenient time and obtain the money when necessary. A note of every such transaction shall be entered in their recorded minutes; and they shall promptly place in the custody of the State Treasurer all securities, abstracts and other papers received for every loan or investment.

All mortgages taken to secure loans, and the transfer of all collateral securities for loans, shall be made to "The Regents of the University of Wisconsin." The Committee on Trust Funds and Donations is also authorized at any time when in their discretion it shall be to the best interests of the trust funds, to sell to any purchaser, upon such terms as they shall deem fit, any properties, whether real estate or personal, belonging to any of the trust funds of the University; and also likewise to sell any securities held by investment of the trust funds or any part thereof; and also, to compound and settle any loans in which any of the trust funds are invested, or any debt due on account of the said trust funds; and in any and every such case, they may by resolution enter on their minutes, require and authorize the President and Secretary of the Board to execute and deliver a proper conveyance, transfer, assignment, release and satisfaction, or

other instrument requisite to give full effect to their action.

SECTION 5. The provisions of this law relate only to the trust funds of the University created for production of income and not to gifts, in any form, where it is directed or in any way provided that the principal of the gift shall be expended or bestowed either during the current year or within any short period thereafter. All such gifts or donations in any form, the principal of which is to be expended, shall be credited to the general income of the University as provided in Section 389 of the Statutes of Wisconsin.

The University Faculty has charge of all matters which concern more than one college or are otherwise of general University interest. The college faculties have charge of matters which lie entirely within their respective colleges. In case of conflict of jurisdiction between the University Faculty and the Faculty of any college, the decision shall rest with the University Faculty.

THE UNIVERSITY FACULTY.

SECTION 2. 1. The University Faculty shall consist of the President of the University, Deans of the several colleges, professors, associate professors, assistant professors, acting professors, Adviser of Women, Mistress of Chadbourne Hall, the Director of the Observatory, the Superintendent of Agricultural Institutes, and the University Librarian. The instructors and assistants may attend the regular meetings of the faculty and have the right to be heard, but not the right to vote.

2. The presiding officer of the University Faculty shall be the President, or in his absence, the Vice-President, or in the absence of both, one of the Deans, in the order of the colleges, as stated in Section 3. The President shall appoint all committees of the faculty unless otherwise ordered, and he is ex-officio a member of all the Committees of the Faculty.

3. The University Faculty shall appoint a Secretary, who shall hold office for one year, or until the appointment of his successor, and who shall keep a full record of their proceedings. They shall provide for such committees and make such rules and regulations in regard to their own proceedings as in their judgment are called for by the best interests of the University.

4. The regular meetings of the faculty shall be held at such times as the faculty shall determine, but special meetings shall be held at the call of the President, or any two of the Deans, or of any five members. It shall be the duty of the Secretary of the Faculty to call special meetings as he may be directed.

In all such cases the recommendation of the appropriate college faculty shall be heard before action is taken.

(c) The form of commencement exercises, including the selection or the provision for the selection of speakers.

The faculty may delegate the investigation of all cases of discipline to a faculty committee on discipline including the Dean or Deans of the College or Colleges of which the accused students are members. Such committee may exercise the full powers of the faculty in reference to suspension until the next meeting of the faculty, and may make recommendations in reference to expulsion. All actions of the discipline committee are subject to appeal to the faculty, but pending such appeal the student may remain suspended at the discretion of the committee. Any action of the discipline committee involving censure or punishment of any student shall be reported at once to the parent or guardian of such student, if not twenty-one years of age and self-supporting, and to the President of the University, who shall transmit the report to the Executive Committee, or to the Regents at the next regular meeting thereafter. Such action shall also be reported to the University Faculty at their next regular meeting.

(c) To recommend to the Regents candidates for bachelor's degrees in course and candidates for the University fellowships and University scholarships provided by the Regents; and fellowships and scholarships provided by private foundation; and to elect honorary fellows and honorary scholars. The number of the latter class shall not exceed the number of University fellows and University scholars.

(d) To report to the University Faculty any cases of misconduct which seem to call for investigation by that body.

A copy of the proceedings of each College Faculty shall be furnished by its secretary to the President of the University. The Secretary shall also communicate to the President, for transmission to the Regents, any Faculty action which does not demand consideration by the University Faculty, but which, from its nature, requires consideration by the Regents, or which in any essential way departs from the established routine and methods of the University.

(b) The athletic council shall consist of four members of the faculty, two of whom shall be of the rank of professor, appointed by the President, and two student members to be elected by the athletic association or their board of directors, one from the senior class, and one from the junior class, the latter to serve two years. After the first year, only one student member shall be selected annually, who shall serve two years. Student members of the council shall not vote upon questions of scholastic eligibility.

(c) The duties of the council shall be to pass upon the eligibility of all candidates for teams, to approve all student managers, captains of teams, and student or other temporary and unpaid coaches, to ratify all contracts and schedules, and to perform such other duties as are now, or hereafter may be, assigned to them by the faculty, the regents, or the intercollegiate conference.

2. ‡ Any athletic surplus shall be devoted as far as possible to permanent University improvements and the financial management of athletics shall be entirely within the control of the faculty which shall publish a report of the receipts and expenses.

3. ‡ The price of admission to intercollegiate contests for members of the University shall not be more than fifty cents, including reserved seats.

4. ‡ All intercollegiate games shall be played on grounds either owned by or under immediate control of one or both of the colleges participating in the contest, and all intercollegiate games shall be played under student or college management, and not under the control of any corporation or association or private individual.

5. ‡ Every athletic contract made shall contain a clause making such contract binding only in so far as it is not in conflict with existing or future legislation by the State Legislature, the Board of Regents, or the Intercollegiate Athletic Conference.

6. (a) ‡ No coach shall be appointed except by University governing bodies on the recommendation of the faculty, or President, in the regular way, and at a moderate salary.

(b) All paid coaches in football, baseball, and track athletics, shall be members of the faculty, employed for the entire year.

7. ‡ There shall be no training table or training quarters for any athletic team.

(a) That the student has passed all entrance requirements.

(b) That he has passed all intervening work as regu-

larly required in the University for the period involved.

It shall be the duty of the captains of the respective teams to exclude all players from the contest except those certified.

B. RULES OF ELIGIBILITY.

(b) No person who has participated as a college student in any intercollegiate game as a member of any college team shall be permitted to participate in any game as a member of any other college team until he has become a matriculate in such college under the above conditions for a period of one year and until after the close of the succeeding season devoted to the sport in which he last participated.

15. (a) ‡ No student shall be permitted to participate in any intercollegiate contest who is found by the faculty to be delinquent in his studies.

(b) The Council shall declare any player or candidate ineligible who is charged with a mark of "failed" or "conditioned" in any of his studies. Any player or candidate whose rank is unsatisfactory in any study may be disqualified.

16. ‡ No person having been a member of any college athletic team during any year, and having been in attendance less than one college half-year, shall be permitted to play in any intercollegiate contest thereafter until he shall have been in attendance six consecutive calendar months.

tests as a representative of any athletic organization not connected with his college, whether in term time or in vacation.

(b) Occasional games during vacation on teams which have no permanent organization are not prohibited provided written permission has been first secured, and further provided that such permission be granted for one team only during any single vacation, and it is expressly understood that no permission will be given to play on a professional or semi-professional team.

(c) In the administration of this rule it is expressly understood that a semi-professional team is one any member of which receives remuneration for his services; and proof of this fact shall not devolve on the person giving the permission, but he may accept common report as a basis for action.

(d) Student membership in athletic clubs being demoralizing to amateur college sport, permission to compete for any athletic club, either in term time or vacation, will not be given.

19. ‡ (a) No student shall be admitted to any intercollegiate contest who receives any gift, remuneration, or pay for his services on the college teams.

(b) No student shall participate in any intercollegiate contest who has ever used or is using his knowledge of athletics or his athletic skill for gain, or who has taken part in any athletic contests in which a money prize is offered, regardless of the disposition to be made of the same. No person who receives any compensation from the university for services rendered by way of regular instruction shall be allowed to play on any team.

(c) The following shall be expressly tolerated as legitimate expenses for the department of physical training to bear:

1. Traveling expenses.
2. Expenses for uniforms, shoes, and other articles of clothing.
3. Medical expenses connected with training or disabilities incurred in practice or in contests.
4. Expenses incurred in providing players with inexpensive souvenirs, such as watch-charms, sweaters, photographs, provided there shall be no element of compensation for services rendered in the giving of any such souvenirs.

(d) No student shall play in any game under an assumed name.

20. ‡ In determining the amateur standing of any student, athletic boards and faculty committees are not restricted to the consideration of positive evidence, but are at liberty to consider the circumstances of the case and common report as a basis for action.

21. ‡ Athletic committees shall require each candidate for a team to represent the university in intercollegiate contests, to subscribe to a statement that he is eligible under the letter and spirit of the rules adopted.

22. No player shall be eligible to receive a "W" who has not returned the supplies and equipment issued to him.
